

Kathiriya Sharmil

CAREER OBJECTIVE

- I am a self-taught JavaScript developer. I've always found coding intuitive and have pushed myself to learn the most effective ways to achieve a result. I'm a fast learner and can quickly integrate into a team so I can provide value to the company and the customers. Web Development with a proven ability to adapt in both self-starting and collaborative environments while staying focused on achieving high quality results under strict deadlines.

EXPERIENCE

- One project is already creating a React.js website to convert Next.js using storybook to create a component and integrate API using strapi and to this project based on crypto. This is my first project to push confidence.
- I have a chance to join an ongoing project. I put my effort into building logic and solving complex functionality. And I learned more.
- Fixed bugs from existing websites and implemented enhancements that significantly improved web functionality and speed.
